What we performed:

- 44 Live Cases.
- The POEM (PerOral Endoscopic Myotomy) procedure for the treatment of achalasia: a new and revolutionary endoscopic procedure with a substantially reduced impact on post-operative pain and recovery time.
- New diagnostic technologies such as EUS (Endoscopic Ultrasonography) with contrast and elastography to rule out pancreatic cancer.
- The mini-invasive endoscopic approach to neoplastic lesions of the stomach and colon performed by international experts using state-of-the-art ESD (Endoscopic Submucosal Dissection) endoscopic devices allowing a more precise assessment from the pathologist, reducing the risk of tumor recurrence and avoiding a more invasive surgical approach for the patient.
- Barrett's Esophagus, a pre-cancerous condition, was ablated with endoscopically-applied radiofrequency.
- EUS-guided choledocho-duodenostomy with a new type of metal stent.
- ERCP cases were carried-out also using new cholangioscopes with improved image quality, simplifying the diagnostic approach to biliary diseases.

Who attended:

452 attendees from 32 Countries
15 International Speakers
18 Moderating Experts
25 Supporting Companies
95 Company Representatives

What they said about us:

"Super organization, a large number of attendees, high quality of live cases driven by an outstanding faculty. All the ingredients for a successful meeting!"

"Very interesting and challenging cases with a high video and sound quality".

"The scientific content, the panel and the organization, represented the driving force behind this event. The collaboration that brought us together on this occasion led to a definitely positive result for everyone." (*Sponsor*)

"Congratulations for the success of the event and for the formula that favors such a high number of trainees".

Live Video Demonstrations from the Endoscopy Unit to the Auditorium of the Policlinico A. Gemelli (Catholic University, Rome) will demonstrate the following procedures (according to the patients available):

ERCP Room

Biliary and pancreatic sphincterotomy
Stones extraction
Biliary and pancreatic stent placement
Cholangioscopy
Pancreatography
Endoluminal radiotherapy
Treatment of pancreatic cysts
Biliary lithotripsy

Gastro/Colon Room

Treatment of gastrointestinal bleeding
Sclerotherapy and band ligation of varices
Esophageal dilation and stenting
Diagnostic and therapeutic colonoscopy
Endoscopic mucosal resection (EMR)
Endoscopic submucosal dissection (ESD)
Radiofrequency ablation (RFA) of Barrett's esophagus
Endoscopic fundoplication
Peroral endoscopic myotomy (POEM)
Mucomyotomy for Zenker's diverticulum
Capsule endoscopy
Diagnostic and therapeutic device-assisted enteroscopy
Confocal endomicroscopy

Echoendoscopy Room

Diagnostic and therapeutic EUS
