# FOREWORD

Dear Colleague,
After last year's success, we are enthusiastically back with a new edition of Endolive® Roma 2026 that will take place from June 24th to 26th at the Auditorium of the Catholic University in Rome.
The format hasn't changed: live video demonstrations of the most recent techniques of diagnostic and therapeutic GI endoscopy will be spaced out by State-of-the-Art Lectures on hot-topics and mini-symposiums. This year, the first day will be entirely dedicated to a focus on "EUS-ERCP INTEGRATION".
Endolive® Roma promotes educational interactions: one of its traits is the close interaction between the chairmen, experts and the audience during the live cases. Endolive® Roma gives you the opportunity to make questions that are, indeed, very much welcome. You will have the extraordinary opportunity to receive direct feedback by internationally renowned and brilliant experts, coming to Rome from all over the world. The possibility to meet the international Faculty during the coffee breaks and lunch sessions, and promoting the discussion of clinical cases and personal experience and knowledge, face-to-face with the experts is also at the centre of this event.
Endolive® Roma facilitates business interactions: Digestive Endoscopy has grown during the past decades also because of a close cooperation between physicians and biomedical industries.
To remark the importance of this relationship, you will be offered the best venue to sit and discuss with International Representatives of some of the most important biomedical industries, and again enhance your knowledge, expand your contacts, and your business. It will be a good occasion to discover new devices and technologies that will be introduced in the field of digestive endoscopy in the near future.
Endolive® Roma promotes cultural interactions: it is an excellent and stimulating setting to share experiences and improve skills. We sincerely hope that you will also consider Endolive® Roma 2026 as a perfect occasion to meet colleagues and friends, in a very special and warm location that is the eternal city of Rome, making you feel a part of the worldwide Digestive Endoscopy family.
Gastroenterologists and GI residents, GI surgeons and radiologists, but also general practitioners and medical students are all welcome to Endolive® Roma 2026.
Let's start!

*Guido Costamagna* *Cristiano Spada*
